Office of Institutional Research  
NORTHERN NEW MEXICO COLLEGE

## INTRODUCTION

The Northern New Mexico College Enrollment Report is an analysis of the end of the term data. This document is compiled by the Office of Institutional Research in order to inform Academic Department Chairs, primarily, regarding the current semester student enrollment and course loads. It is intended for both planning and strategic decision making. This report is prepared at census date (3rd Friday), and focuses on first 8-week, and 16-week enrollment. This end of term enrollment report is prepared at the end of the semester in order to capture second 8-week information. Table 2 and tables 9-16 which contain Student Credit Hour (SCH) statistics have been updated to include first 8-week, second 8-week, and 16-week course information. The tables (indicated with an \*) with student's headcount information are not updated and contain the same information as reported at semester census date (3<sup>rd</sup> Friday).

Thirty-three (33) students were identified as enrolled at end of term but were not enrolled at the beginning (census). Of these "new" students, 61% are female, 58% are Hispanic, 39% are dual credit, and 24% are transfer students.

Similarly, eight (8) students who were enrolled at the census date are now no longer enrolled at the end of term. Of these eight who left, three (3) were dual credit (one who enrolled for first 8-week courses), two (2) of them were undergraduate non-degree seeking, one student was a junior, one was a Sophomore, and one was a Freshman. All but one of the eight withdrew from the semester without receiving a W grade for Fall 2021.

The data in this publication is compiled using the most recent enrollment, schedules, and faculty assignments. All data is collected and maintained using Banner. The intent of this report is to provide an accurate and consistent reference for use by various internal and external stakeholders as well. This effort intends to not only provide quick and easy access to institutional data but also to open-up new ideas and questions. If you have questions or comments regarding this report, please feel free to contact us by email at [rishi.poudyal@nnmc.edu](mailto:rishi.poudyal@nnmc.edu).

Table 19

**\*Distribution of total SCHs enrolled by each student**

Graph 2: Histogram of the Student Credit Hours per student (the vertical axis is the number of students). Students who take between 12 and 18 credits are only charged tuition for the first 12 credits. Because of this distribution and the attendance of dual credit students, only 88% of the SCHs generated are eligible for tuition. Employee tuition waivers decrease this number even further

**\*Enrollment by Location**

City	Frequency	Percent
Espanola	301	27.12
Santa Fe	125	11.26
Santa Cruz	70	6.31
Albuquerque	69	6.22
